22 July 2008

Dear Martin,

This is to confirm that you facilitated Connect in the North's Big Planning Day on 24th August 2007. This is our annual meeting to involve people with learning difficulties in writing the business plan for the organisation.

We have been involving people with learning difficulties in planning our work for many years but this was the most successful event. It was a very enjoyable day. The level of participation and contribution from everyone was very high. We were delighted and very grateful to you for the effort you put into the planning and preparation and the skills with which you facilitated the day.

Yours sincerely
